Income Generating Activities (IGA) for teenage mothers for improved livelihoods

Introduction

The Forum for African Women Educationalists Kenya (FAWEK) is a Non-Governmental Membership Organization affiliated to FAWE – a Network working in 33 countries in Sub-Saharan Africa to achieve gender equality and equity in education across the continent in line with Education for All (EFA) and Sustainable Development Goals (SDGs). FAWE Kenya believes that through girls' and women's education, the entire communities' livelihoods, civic education, and liberties are enhanced. Educated girls get equipped with knowledge, skills, and opportunity to play a role in governance, democratic processes and influence societal development. FAWE Kenya is implementing the Tamatisha! Project in partnership with ENAI Africa in 5 Counties in Kenya; Nakuru, Kajiado, Nairobi, Machakos and Narok Counties. The project aims to significantly reduce the incidence of teenage pregnancy in Kenya during and beyond the COVID 19 crisis by enhancing awareness on the importance of Human Sexuality Education and acceptance of teenage mothers back to school.

Income Generating Activities (IGA)

FAWE Kenya invites applications for financial support towards the Income Generating Activities (IGA) for Teenage Mothers under the Tamatisha Project. The IGA intends to ignite collaboration between mothers and their teen daughters (teenage mothers) to work together towards economic empowerment to support the girls to go back to formal schools, short courses, vocational training or TVET and also improve the family economic status. The IGA will be structured in a way to allow the girls to acquire skills but at the same time complete their education- Formal and non-formal learning. The main drivers will be the mothers and the teenagers as support (evening hours, weekends and/or holidays). The finances generated will also support to take care of the babies born and/or their care givers.

The IGA aims at igniting collaboration between mothers and their teen daughters (teenage mothers) to work together towards economic empowerment to support the girls to go back to school and also improve the family economic status. This is by nurturing sustainable business ideas to enable them productively and positively contribute to socio-economic development of their families. The IGA will be structured in a way to allow the girls to acquire skills but at the same time complete their education. The main drivers will be the mothers and the teenagers as support (evening hours, weekends and/or holidays). The finances generated will also support to take care of the babies born and/or their care givers. Teenage mothers and their mothers will be trained on basic skills of entrepreneurship and small business management. They will also be given a start-up fund to encourage them to start income generating activities. This will enable vulnerable academically bright girls from economically disadvantaged backgrounds who have dropped out of school due to teenage pregnancy to access and complete basic education.
